

REGULATIONS OF PRACTICAL EDUCATION

What is practical education?

01.

Practical training includes:

- Practical classes
- Professional internships
- ✓ You must complete and pass all forms in accordance with the schedule.
- ✓ Order of completion:
Lectures → Classes → Classes at the Medical Simulation Center → Practical classes → Professional internships

Where do the practical classes/internships take place?

02.

Practical classes and professional internships are carried out in medical institutions with which the University has concluded relevant cooperation agreements.

The current list of these institutions is available on the University's website under the following tab:
Student Support > Practical Education > 8. Database of Internships

Rights of the Student

03.

- ✓ A well-organized practical training process.
- ✓ Guidance and support from a teacher/supervisor.
- ✓ Fair, objective, and transparent assessment.
- ✓ Safe conditions for carrying out the training.
- ✓ Meal breaks at designated times.

Responsibilities of the Student

04.

- ✓ Be punctual and consistently attend classes/practical training.
- ✓ Complete practical training in accordance with the schedule.
- ✓ Report absences and make them up within the established timeframe.
- ✓ Maintain the required documentation of practical training.
- ✓ Respect patients' rights.
- ✓ Maintain professional confidentiality.
- ✓ Wear protective clothing and an identification badge.
- ✓ Attend the ward in clean and tidy clothing, maintaining high standards of personal hygiene, and without wearing strong fragrances.

What is NOT allowed?

05.

- Wearing jewelry.
- Wearing artificial nails or nail extensions.
- Applying nail polish.
- Wearing additional clothing over or under the uniform.
- Using a phone, headphones or recording devices during practical classes/professional internships.

REGULATIONS OF PRACTICAL EDUCATION

06.

Documents – What You Need to Have

- ✓ Medical certificate for sanitary and epidemiological purposes.
- ✓ Confirmation of vaccination against Hepatitis B.
- ✓ Liability (OC), accident (NNW), and post-exposure insurance.
- ✓ Certificate from the National Criminal Register (KRK).
- ✓ Full uniform and identification badge.

07.

Pregnant / Breastfeeding Student

- ✓ Obligation to inform the instructor/supervisor about pregnancy.
- ✓ Current medical certificate confirming the ability to participate in classes/internships.
- ✓ Written declaration of responsibility.
- ✓ Right to breaks for breastfeeding (in accordance with regulations).

08.

Practical Classes

- The institutions where classes take place are designated by the University.
- They take place in accordance with the study schedule and timetable.
- They are led by an academic instructor who holds the right to practice the profession.
- They are carried out in clinical conditions.
- They serve as preparation for undertaking professional internships.

09.

Professional Internships

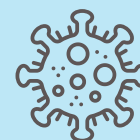

- They may be carried out in institutions designated by the University or independently chosen by the student (after meeting formal requirements and signing an agreement).
- They take place in the form of shifts (8- or 10-hour).
- The student is under the supervision of a practice supervisor from the medical institution.
- After completing the internship, the completed and signed practical training log must be submitted to the Dean's Office.
- Completion of the professional internship is a condition for passing the semester.

10.

Exposure to Infectious Material

- Possible exposure to viruses: HBV, HCV, HIV.
- In case of exposure, the hospital procedure is applied.
- Familiarize yourself with the "Procedure for Management After Occupational Exposure" available under the Practical Education section on the website:
www.international.powislanska.edu.pl

11.

Who supervises the practical classes / professional internships?

- The internships are supervised by:
- ✓ Internship Supervisor at the medical institution
 - ✓ Vice-Rector for Practical Training
